

**HIGHER TRAINING IN PAEDIATRIC SURGERY  
CONSOLIDATION SHEET**

(Remarks: Programme Directors of respective Specialty Boards will conduct random check of the trainee's Logbook Summary and Logbook Summary Report against the operation data from the Hospital Authority. The College reserves to take appropriate action should any untrue reporting of data was found.)

**Trainee Name:**

**Post:**

**Training Period:**        /        /        / -        /        /        /        (DD/MM/YYYY)

<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<b><i>General Surgery</i></b>				
Insertion of central venous catheter				
Excision of skin lumps & bumps				
Excision of AV malformation / lymphangioma				
Incision & drainage of abscess				
Wound toileting & suturing				
Skin harvesting/ grafting				
<b><i>Abdominal wall surgery</i></b>				
Repair of umbilical hernia				
Repair of incisional hernia				
Repair of ventral hernia				
Surgery for urachal remnants				
<b><i>Head and Neck Surgery</i></b>				
Excision of ranula				
Release of tongue tie				
Operation on thyroglossal cysts & fistulas				
Operation on branchial cysts, sinuses & fistula				
Excision of external angular dermoid cyst				
Surgery for sternocleidomastoid torticollis				
Tracheostomy				
Excision of preauricular sinuses				

Excision of accessory auricles				
<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<b><i>Head &amp; Neck Surgery (continued)</i></b>				
Repair of cleft lip				
Revision of lip surgery				
Repair of cleft palate				
Revision of palate surgery				
Pharyngoplasty				
Total / Hemi-thyroidectomy				
<b><i>Thoracic Surgery</i></b>				
Thoracotomy for esophageal atresia with or without tracheo-oesophageal fistula				
Cervical oesophagostomy				
Surgery for H-type tracheo-oesophageal fistula				
Surgery for recurrent tracheo-oesophageal fistula				
Aortopexy				
Oesophageal replacement with colon				
Oesophageal replacement with stomach				
Lung resection				
Surgery for lung empyema				
Surgery for mediastinal masses				
Surgery for chest wall deformities				
Video-assisted thoracoscopic surgery for esophageal atresia with or without tracheo-oesophageal fistula				
Video-assisted thoracoscopic sympathectomy				
Video-assisted thoracoscopic surgery for spontaneous pneumothorax				
Video-assisted thoracoscopic lung resection				
<b><i>Hepatobiliary Surgery</i></b>				
Surgery for biliary atresia				
Surgery for choledochal cyst				
Surgery for portal hypertension				

Cholecystectomy				
Laparoscopic cholecystectomy				
<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<i><b>Gastrointestinal &amp; Abdominal Surgery</b></i>				
Liver biopsy				
Operative cholangiogram				
Diagnostic laparoscopy				
Laparotomy				
Adhesiolysis				
Oesophago-gastro-duodenscopy				
Surgery for gastro-oesophageal reflux				
Laparoscopic fundoplication				
Surgery for achalasia				
Laparoscopic Heller cardiomyotomy				
Gastrostomy				
Laparoscopic assisted gastrostomy				
Percutaneous endoscopic gastrostomy				
Surgery for gastric volvulus				
Surgery for intussusception				
Laparoscopic reduction of intussusception				
Surgery for Meckel's diverticulum				
Laparoscopic-assisted surgery for Meckel's diverticulum				
Bowel resection & anastomosis				
Open appendicectomy				
Laparoscopic appendicectomy				
Formation of stoma - enterostomy				
Formation of stoma - colostomy				
Closure of stoma				
Bowel lengthening procedure				
Malone procedure for antegrade continent enema				
Surgery for inflammatory bowel disease				
Surgery for familial adenomatous polyposis coli				
Surgery for rectal prolapse				

Excision of rectal polyps				
Surgery for anal fissure				
Surgery for fistula in ano				
<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<i>Gastrointestinal &amp; Abdominal Surgery (continued)</i>				
Sigmoidoscopy				
Colonoscopy				
Suction rectal biopsy				
Full-thickness rectal biopsy				
Splenectomy				
Laparoscopic splenectomy				
<i>Urology Surgery</i>				
Surgery for pelvi-ureteric obstruction				
Laparoscopic Anderson-Hynes dismembered pyeloplasty				
Total/ partial nephrectomy				
Laparoscopic total/ partial nephrectomy				
Surgery for duplex kidney/ ureteric duplication				
Laparoscopic surgery for duplex kidney/ ureteric duplication				
Surgery for renal calculi				
Percutaneous nephrostomy lithotripsy				
Surgery for ureteric calculi				
Surgery for bladder calculi				
Cystoscopy				
Cystoscopic incision of ureterocele				
Cystoscopic ablation of posterior urethral valve				
Cystoscopic urethrotomy				
Insertion / removal of double-J catheter				
Insertion/ removal of Tenchnoff cathetar				
Endoscopic correction of vesicoureteric reflux				
Ureteric reimplantation				
Laparoscopic ureteric reimplantation				

Pneumovesical ureteric reimplantation				
Surgery for vesico-ureteric obstruction				
Surgery for ectopic vesica				
<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<b><i>Urology Surgery (continued)</i></b>				
Bladder augmentation & Mitrofanoff appendicovesicostomy				
Other surgery for neurogenic bladder				
Bladder neck surgery				
Urinary diversion				
Circumcision				
Meatotomy/ meatoplasty				
Hypospadias repair				
Epispadias repair				
Repair of urethral fistula				
Buried penis repair				
Correction of penile torsion				
Correction of chordee				
Surgery for scrotal anomalies				
Orchidopexy				
Laparoscopic/ Laparoscopic-assisted orchidopexy				
Orchidectomy for undescended testis				
Surgery for varicocele				
Laparoscopic ligation of varicocele				
Surgery for ovarian cysts				
Surgery for urogenital sinus				
Surgical reconstruction for intersex abnormalities				
Surgery for imperforated hymen				
<b><i>Inguino-scrotal region surgery</i></b>				
Open inguinal herniotomy				
Laparoscopic inguinal herniotomy				

High ligation of patent processus vaginalis				
Surgery for femoral hernia				
Surgery for acute scrotum				
Surgery for testicular torsion				
<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<i>Neonatal Surgery</i>				
Repair of congenital diaphragmatic hernia				
Repair of eventration of diaphragm				
Surgery for gastroschisis – primary repair				
Surgery for gastroschisis – silo repair				
Surgery for omphalocele/ exomphalos -primary repair				
Surgery for omphalocele/ exomphalos silo repair				
Surgery for pyloric stenosis				
Surgery for duodenal stenosis/ atresia				
Surgery for small bowel stenosis/ atresia				
Surgery for large bowel stenosis/ atresia				
Surgery for malrotation with or without volvulus				
Surgery for necrotizing enterocolitis				
Surgery for meconium ileus/ peritonitis/ plug				
Surgery for vitellointestinal duct anomalies				
Surgery for duplication of alimentary tract				
Pull through procedure for Hirschsprung’s disease				
Laparoscopic-assisted pull through for Hirschsprung’s disease				
Anoplasty				
Posterior sagittal anorectoplasty				
Pull through procedure for imperforated anus				
Laparoscopic-assisted pull through for imperforated anus				
Cloaca reconstruction				
Bladder exostrophy closure				

<i>Trauma surgery</i>				
Laparotomy for major abdominal trauma				
<b>Operation</b>	<b>A</b>	<b>C</b>	<b>S</b>	<b>Total</b>
<i>Oncology Surgery</i>				
Surgery for liver tumours				
Surgery for Wilms' tumours				
Surgery for neuroblastoma				
Surgery for rhabdomyosarcomas				
Surgery for sacrococcygeal teratoma				
Surgery for other teratomata				
Surgery for testicular tumours				
Surgery for ovarian tumours				
Surgery for hyperinsulinaemic hypoglycaemia				
Surgery for other tumours				
<i>Miscellaneous Surgery</i>				
Liver transplant				
Small bowel transplant				
Kidney transplant				
Paediatric interventional procedures				
Pneumatic/ hydrostatic reduction of intussusception				
Robotic surgery				

I declare that the information in this logbook summary report is true and correct.
