

Higher Training in Plastic Surgery - Log Book Summary

(Remarks: Programme Directors of respective Specialty Boards will conduct random check of the trainee's Logbook Summary and Logbook Summary Report against the operation data from the Hospital Authority. The College reserves to take appropriate action should any untrue reporting of data was found.)

Major Procedures	Surgeon Mentor Scrubbed	Surgeon Mentor in Theatre	Surgeon Mentor Available	Assist Surgeon
Major				
1. Abdominal lipectomy				
2. Abdominoplasty				
3. Branchial fistula excision				
4. Burns debridement, extensive				
5. Chest wall reconstruction				
6. Cleft lip or palate repair				
7. Composite free graft				
8. Cranial facial resection				
9. Cranial nerve anastomosis				
10. Cystic hygroma, extensive excision				
11. Digit, transplantation, syndactyly reconstruction				
12. Ear deformity, correction, reconstruction				
13. Excision of tumour & skin graft				
14. Eyelid deformity, correction				
15. Eyelid, whole thickness reconstruction				
16. Face lift				
17. Facial nerve paralysis, fascia graft or muscle transfer				
18. Free flap (microvascular)				
19. Free skin graft (large)				
20. Genitourological reconstructive operations				
21. Haemangioma, excision				
22. Hair transplantation				
23. Hypoglosso-facial nerve anastomosis				
24. Hypospadias, urethral reconstruction				
25. Insertion of penile prosthesis, penil reconstruction, Intersex surgery				
26. Insertion of tissue expander				
27. Laryngectomy				
28. Laryngopharyngectomy				
29. Liposuction				
30. Lymph glands of neck, groin or axilla, radical excision				
31. Malignant skin tumour, radical excision				
32. Mammoplasty, augmentation, breast lift, reduction or post Mastectomy reconstruction				
33. Mandibular reconstruction				
34. Mandible resection				
35. Mastectomy simple, subcutaneous or radical				
36. Mastectomy with flap reconstruction				
37. Maxilla, resection				
38. Maxillary swing resection				
39. Maxillo-facial fractures, open reduction or fixation				

Major Procedures	Surgeon Mentor Scrubbed	Surgeon Mentor in Theatre	Surgeon Mentor Available	Assist Surgeon
40. Microvascular free flap				
41. Neck lift				
42. Neurovascular island flap				
43. Nose reconstruction				
44. Operations using operation microscope				
45. Oral tumour, radical resection				
46. Paediatric umbilical hernia repair				
47. Parotidectomy				
48. Penis, partial or complete amputation				
49. Phalloplasty				
50. Resection of head & neck cancer with primary flap reconstruction				
51. Resurfacing of acne scars, wrinkles				
52. Rhinoplasty of all types				
53. Skin flap repair, mucosal flap repair				
54. Skin transplantation				
55. Split palate implantation of radioactive goldgrain				
56. Split sternum resection of head & neck cancer				
57. Thoracic duct ligation				
58. Thyroglossal cyst removal				
59. Thyroidectomy				
60. Tongue, transoral excision				
61. Treatment of hyperhidrosis				
62. Urethroplasty				
63. Vaginoplasty				
Intermediate				
1. Branchial cyst, excision				
2. Burns debriement, limited area				
3. Cleft lip, secondary correction				
4. Excision of deep or large tumour or cyst, etc				
5. Excision of polydactyly				
6. Fat transplantation				
7. Hypospadias, correction of chordae				
8. Lymph glands of neck, groin or axilla, limited excision				
9. Mastectomy, partial				
10. Meatoplasty				
11. Removal of deep foreign body				
12. Revision of scar				
13. Skin flap revision				
14. Submandibular or sublingual salivary gland, excision				
15. Suturing of extensive or complicated laceration				
16. Tracheostomy				

Major Procedures	Surgeon Mentor Scrubbed	Surgeon Mentor in Theatre	Surgeon Mentor Available	Assist Surgeon
Minor				
1. Amputation of digits				
2. Biopsy of skin, mucous membrane, lymph gland or muscle				
3. Botulinum toxin injection				
4. Breast excision of cyst, benign tumour, removal of prosthesis				
5. Chemical peel				
6. Collagen injection				
7. Cryosurgery				
8. Dermabrasion				
9. Electrocautery				
10. Examination under anaesthesia & biopsy				
11. Excision of mucus retention cyst, lipoma, sebaceous cyst				
12. Excision of sinus				
13. Excision of superficial tumour, cyst, ulcer or scar				
14. Free skin graft				
15. Hair removal				
16. Hyaluronic acid injection				
17. Hypertrophic scar, steroid injection				
18. Ranula of mouth, excision				
19. Ranula of mouth, marsupialization				
20. Removal of salivary calculus				
21. Removal of subcutaneous foreign body				
22. Scalene lymph node biopsy				
23. Suturing of simple lacerations				
24. Tongue tie release				
25.. Urethral sounding				
Endoscopic & Laser Surgical Procedures				
1. Bronchoscopy				
2. Endoscopic assisted surgery ★				
3. Laryngoscopy				
4. Laser assisted surgery ★				
5. Nasoendoscopy				
★ Recorded in addition to similar procedures not performed endoscopically or with the use of last machine				

Trainee Name : _____

Training Hospital : _____

Training Period : _____ to _____ (dd / mm / yyyy)

I declare that the information in this logbook summary report is true and correct.

Signature (Trainee): _____
