

# Day 1 (20 Nov 2021)

The time shown in the below provisional programme is HTK (GMT+8).

Time	Room 1 Grand Hall A	Room 2 Charles K Kao Auditorium	Room 3 Grand Hall B	Room 4 Function Hall
0745 - 0800	<b>Registration</b>			
0800 - 0930	<p><b>Colorectal Surgery I: New Horizons in Transanal Surgery</b> Moderators: Craig LYNCH, Joe KM FAN, Kam Hung KWOK</p> <p>Combined laparoscopic and transanal approach to treat anastomotic leak <b>William TL CHEN</b></p> <p>Trans-anal lateral LN dissection <b>Kay UEHARA</b></p> <p>Pure NOTES TaTME <b>Liang KANG</b></p> <p>Robotic transanal surgery: Hype or hope? <b>Tony WC MAK</b></p> <p>Stereotactic navigation with augmented reality for TaTME <b>TBC</b></p>	<p><b>Nursing I</b> (The programme starts at 0830) Moderators: <b>Wanda WW LEE, Ching Han LEUNG</b></p> <p>Nursing consideration about multiple procedures in one robotic operation <b>Li Lap LAU</b></p> <p>Safe endoscopy in COVID pandemic <b>Pui Yan CHAN</b></p>	<p><b>ELSA - CUHK Surgical Symposium: Disruptive Surgical Technologies That May Change Our Practice</b> Moderators: James YW LAU, Enders KW NG</p> <p>Real-time navigation using fusion ICG fluorescence imaging in liver surgery <b>Kelvin KC NG</b></p> <p>The emerging role of robotics in pelvic exenterative surgery <b>Man Fung HO</b></p> <p>Role of da Vinci single port system in radical prostatectomy <b>Jeremy YC TEOH</b></p> <p>Versius: The modular robotic surgical system <b>Anthony YB TEOH</b></p>	<p><b>Paediatric Surgery</b> Moderators: Yunli BI, Nicholas SY CHAO, Jennifer SIHOE</p> <p>Laparoscopic management of congenital duodenal obstruction in neonates and infants <b>Tran SON</b></p> <p>ICG applications in paediatric MIS <b>Keneth KY WONG</b></p> <p>Updates in MIS for adolescent varicoceles <b>Keneth LY CHUNG</b></p> <p>Advances in laparoscopic reconstructive urology in children <b>Yunli BI</b></p>
0930 - 1000	<b>Medtronic Sponsored Breakfast Symposium</b> Moderator : Simon SM NG Innovations and advances in linear cutter by <i>Ryan JONES</i>			
1000 - 1130	<p><b>Colorectal Surgery II: New Evidence and Clinical Trials in Colorectal MIS</b> Moderator: Tony WC MAK, TBC</p> <p>Is single port laparoscopic colorectal surgery here to stay? Lessons learnt from the SIMPLE trial <b>Suk Hwan LEE</b></p> <p>Laparoscopic vs open surgery in palliative resection of primary tumor in incurable stage IV colorectal cancer: JCOG1107 / ENCORE trial <b>Masafumi INOMATA</b></p> <p>Complete mesocolic excision vs D2 dissection in patients undergoing laparoscopic colectomy for right colon cancer: Short-term outcome of the RELARC trial <b>Minhua ZHENG</b></p> <p>Transanal TME vs robotic TME for mid and low rectal cancer: Interim analysis of the TARO trial <b>Simon SM NG</b></p>	<p><b>Nursing II</b> Moderators: <b>Wanda WW LEE, Ching Han LEUNG</b></p> <p>Lower GI surgery <b>Carmen KM CHEUNG</b></p> <p>Intra-operative care on endoscopic and laparoscopic surgery <b>Michelle YL WONG</b></p> <p>Strategic perioperative nursing service to reduce pre-operative hospital stay <b>Jessica SY CHAN</b></p>	<p><b>Stomach: Advances in Gastric Surgery</b> Moderators: <b>Kent Man CHU, Enders KW NG</b></p> <p>Future of robotic gastrectomy <b>Woo Jin HYUNG</b></p> <p>Future of peritoneal therapy <b>Jimmy SO</b></p> <p>Laparoscopic gastrectomy for early cancer <b>Han Kwang YANG</b></p> <p>Laparo-endoscopic surgery for GIST <b>Hon Chi YIP</b></p>	<p><b>Cardiovascular Surgery</b> Moderators: Wilson SZETO, Daniel TL CHAN, Randolph HL WONG</p> <p>Clinical and radiological basis of stentless TEVAR and false lumen treatment in chronic TBAAD <b>Suk Won SONG</b></p> <p>Strategies to secure durability in hybrid arch intervention <b>Worawong SLISATKORN</b></p> <p>Emerging endograft technology for the treatment of arch pathology <b>Wilson SZETO</b></p> <p>Role of hybrid intervention in patient with visceral ischaemia in TAAAD <b>Jer Shen CHEN</b></p> <p>TAVR in bicuspid valves <b>Gilbert TANG</b></p>
1130 - 1210	<b>Opening Ceremony</b>			
1210 - 1310	<b>Presidential Plenary Session I</b> Moderators : Davide LOMANTO, Philip WY CHIU, Michael KW LI TBC by <i>Salvador MORALES-CONDE</i> TBC by <i>Suthep UDOMSAWAENG SUP</i> TBC by <i>Gerald FRIED</i>			
1310 - 1400	<b>Olympus Sponsored Lunch Symposium:</b> <b>Advancement in Laparoscopic Colorectal Surgery: Implementation of the Latest Techniques and Technologies</b> Moderators : Craig LYNCH, Michael KW LI, Simon SM NG Laparoscopic TME with lateral lymph node dissection using a novel flexible 3D scope by <i>Takashi NONAKA</i> Current evidence for laparoscopic total mesorectal excision and techniques to optimize the laparoscopic approach by <i>Ji Won PARK</i>			
1400 - 1430	<b>Lunch</b>			
1430 - 1600	<p><b>Hernia I</b> Moderators: Rolf HARTNUG, Sathien TUMTAVITIKUL, Joe KM FAN</p> <p>Open groin hernia repair, When and how? <b>Jose Macario FAYLONA</b></p> <p>Laparoscopic groin hernia repair for emergency, How far shall we go? <b>George PC YANG</b></p> <p>Complex inguinal hernia <b>David CHEN</b></p> <p>Fascial defect in ventral hernia repair, Close or not close? <b>Anthony YB TEOH</b></p> <p>Complication in extraperitoneal repair, how to prevent? Component separation &amp; lap TAR - The important technical points <b>Kiyotaka IMAMURA</b></p> <p>Diatasis recti, shall we repair? The tips to long term success <b>Sujith WIJERATHNE</b></p>	<p><b>Urology</b> Moderators: <b>Peter KF CHIU, Peggy SK CHU</b></p> <p>Robotic reconstructive surgery with the use of intestinal tract <b>Samuel CH YEE</b></p> <p>Prostatectomy in patient with previous surgery - Transperineal approach <b>Shancheng REN</b></p> <p>Every man needs to know - Advances in MIS for BPH <b>Peter KF CHIU</b></p> <p>Cases discussion - Management of laparoscopic complication <b>Ho Yee TIONG</b></p>	N/A	<p><b>Thoracic Surgery</b> Moderators: <b>Cheuk Kin LO, Alan DL SIHOE</b></p> <p>Transbronchial microwave ablation of lung tumours <b>Calvin SH NG</b></p> <p>VR system in thoracic surgery <b>Sang Hoon JHEON</b></p> <p>Initial experience of SP robotic surgery for treating thoracic disease <b>Hyun Koo KIM</b></p> <p>Feasibility of unisurgeon in the uniport VATS surgery: CGMH experience <b>Ching Feng WU</b></p>
1630 - 1800	<p><b>Hernia II: Debate</b> Moderators: Abdul Gafoor MUBARAK, Sujith WIJERATHNE</p> <p>Open vs lap in open complex inguinal hernia <b>Jie CHEN, Rajesh KHULLAR</b></p> <p>Extra or intra peritoneal for ventral abdominal wall hernia <b>Victor RADU, Anil SHARMA</b></p> <p>Laparoscopic groin hernia repair, Waiting for the perfect mesh? <b>Davide LOMANTO, George PC YANG</b></p>	<p><b>Vascular Surgery</b> Moderators: Kin Yan LEE, Skyi YC PANG</p> <p>Endovascular treatment of Type B aortic dissection <b>Victor CHAO</b></p> <p>Current advances in endovascular treatment of peripheral arterial disease <b>Skyi YC PANG</b></p> <p>Minimal invasive treatment of varicose veins <b>Kin Yan LEE</b></p> <p>Modern treatment options for complex thoracoabdominal aortic aneurysms <b>Jimmy WH TAN</b></p>	<p><b>Esophagus</b> Moderators: Raad ALMEHDI, Philip WY CHIU, Simon YK LAW</p> <p>Minimally invasive esophagectomy - Current standards of radical lymphadenectomy <b>Ichiro UYAMA</b></p> <p>Robotic assisted minimally invasive esophagectomy - Global status from UGIRA registry <b>Richard VAN HILLENGERSBURG</b></p> <p>Role of 3D and ICG for minimally invasive esophagectomy <b>Hon Chi YIP</b></p> <p>Laparoscopic repair of large hiatal hernia <b>Allen BUENAFE</b></p> <p>Laparoscopic antireflux surgery - Current advances <b>Ian YH WONG</b></p>	<p><b>Training in MIS during COVID-19</b> Moderators: Humayun CHOWDHURY, Siu Kee LEUNG, Michael KW LI</p> <p>ELSA surgical education and pandemic disruption <b>Davide LOMANTO</b></p> <p>APELS training during COVID-19 <b>Michael KW LI</b></p> <p>New JSES educational programme of laparoscopic surgery <b>Shigeki YAMAGUCHI</b></p> <p>TBC <b>GV RAO</b></p>

# Day 2 (21 Nov 2021)

The time shown in the below provisional programme is HTK (GMT+8).

Time	Room 1 Grand Hall A	Room 2 Charles K Kao Auditorium	Room 3 Grand Hall B	Room 4 Function Hall
0845 - 0900	<b>Registration</b>			
0900 - 0930	<b>Presidential Plenary Session II</b> Moderators: Suthep UDOMSAWAENG SUP, Philip WY CHIU Innovation in surgical endoscopy - From ESD, POEM to beyond by <i>Haruhiro INOUE</i> Record it all: Using surgical video to improve skills and outcomes in minimally invasive surgery by <i>Liane FELDMAN</i>			
0930 - 1100	<b>Robotic Surgery</b> Moderators: Anthony CF NG, Simon SM NG  Robotic hepatectomy Chung Ngai TANG  Robotic colorectal surgery Simon SM NG  TBC TBC  Robotic esophagectomy Yin Kai CHAO  Setting up a robotics programme and early clinical experience with Hugo™ RAS System Ruben OLIVARES	<b>General Surgery - Emergency MIS</b> Moderator: TBC  Role of laparoscopic surgery in Intestinal obstruction TBC  Acute cholecystitis - Laparoscopic cholecystectomy or endoscopic gallbladder drainage? Shannon CHAN  Acute appendicitis - Laparoscopic, endoscopic or conservative management? Kevin KK YAU  Laparoscopic surgery for emergency hernia Allen BUENAFE	<b>HBP I: Minimally invasive liver surgery</b> Moderators: Thomas KC CHENG, Kit Fai LEE  Laparoscopic major hepatectomy for malignant liver tumor Go WAKABAYASHI  Minimally invasive donor hepatectomy in living donor liver transplant Kyung Suk SUH  Current role of robot in liver surgery Brian K GOH  An update on ICG fluorescence in liver surgery Tan To CHEUNG	Best Abstract / Video Presentation Judges: Ray SARMIENTO, Asim SHABBIR, Samuel PY KWOK, Tak Wing LAI
1100 - 1130	<b>Stryker Sponsored Breakfast Symposium</b> Moderator : Paul BS LAI  4K/IR Laparoscopic Left Hepatectomy: Cranio-dorsal approach by <i>Go WAKABAYASHI</i>			
1130 - 1300	<b>Innovation Session:</b> ELSA Technological Innovation Moderator: Philip WY CHIU  Thermodynamics of laparoscopy revisited: A new scope warmer / cleaner in the era of global surgery Kiyokazu NAKAJIMA  Robotics in flexible endoscopy Silvana PERRETTA  Innovation in imaging for minimally invasive surgery Vitoon CHINSWANGWATENAKUL  Advanced endoluminal robotics PHILIP WY CHIU  What new technology can make POEM safer, easier & quicker? Mohan RAMCHANDANI	<b>Endocrine Surgery</b> Moderators: Chi Yee CHOI, Shirley YW LIU, Kenny CY WONG  Fluorescent techniques for the detection and preservation of parathyroid glands during thyroid and parathyroid surgery Frederic TRIPONEZ  <b>Medtronic Sponsored Lecture:</b> Personal experience on advances in thyroid surgery with NIM VITAL Marcin BARCZYNSKI  The status of bilateral axillo breast approach (BABA) thyroidectomy in Asia Kyu Eun LEE  Radiofrequency ablation of benign thyroid nodules Woo Jin CHO  Radiofrequency ablation for benign adrenal diseases Shirley YW LIU	<b>HBP II: Minimally Invasive Pancreatic Surgery</b> Moderators: Charing CN CHONG, Francis PT MOK  Minimally invasive pancreatotomy Alfred KOW  Role of robot in minimally invasive pancreaticoduodenectomy Rong LIU  Minimally invasive distal pancreatotomy: Preserving spleen or not Kelvin KC NG  Robotic pancreaticoduodenectomy: Tips and tricks Eric CH LAI	Best Abstract / Video Presentation Judges: Ray SARMIENTO, Asim SHABBIR, Samuel PY KWOK, Tak Wing LAI
1300 - 1330	<b>Ethicon Sponsored Lunch Symposium</b>			
1330 - 1400	<b>Lunch</b>			
1400 - 1530	<b>Endoscopy I: Recent Advances in Endoluminal Endoscopy</b> Moderators: Angus CW CHAN, James YW LAU  Where are we now on AI for endoscopy? Shannon CHAN  Initial experience in ultra-magnifying NBI endoscopy Noriya UEDO  Techniques and outcomes in endoscopic full thickness resections Amol BAPAYE  Recent advances in endoscopic anti-reflux procedures Rakesh KALAPALA  Novel endoscopic technologies enhancing endoscopic treatment of early GI neoplasia Hon Chi YIP	<b>Hernia &amp; Bariatric Surgery</b> Moderators: Vimal VASUDEAVAN, Asim SHABBIR, Simon KH WONG  Ventral hernia and bariatric Surgery: Is there a consensus? Allen BUENAFE  Hiatal hernia after bariatric surgery - Prevention & management Asim SHABBIR  Gastric bypass & mesenteric defect - When & how to close? Suthep UDOMSAWAENG SUP  Port site hernia after bariatric surgery - Should we close? Fion SY CHAN	<b>Ethicon Sponsored Symposium: New Era of Surgical Education - Exploring Possibility of Remote Education Beyond Boundaries</b> Moderators: Yoshiharu SAKAI, Enders KW NG  Standardization and education of laparoscopic colectomy - Japan style Shigeki YAMAGUCHI  JSES remote suturing seminar and the enhancement of the relationship with ELSA in the era of COVID-19 Kazunori KASAMA  TBC Jaideep RAO	N/A
1530 - 1600	<b>Break</b>			
1600 - 1730	<b>Endoscopy II: Recent Advances in Pancreaticobiliary Endoscopy</b> Moderators: Angus CW CHAN, James YW LAU  Recent advances in endoscopic evaluation of indeterminate biliary strictures Dong Wan SEO  Diagnosis and management of pancreatic cystic neoplasms Ji Kon RYU  Biliary drainage in altered anatomy - ERCP vs EUS? Mitsuhiro KIDA  Current development in EUS-guided drainage procedures Thawee RATANACHU-EK  EUS GI anastomosis Anthony YB TEOH	<b>APMBSS Session - Laparoscopic Revision Surgery for Post-Sleeve Gastrectomy Reflux</b> Moderators: Wei Jei LEE, Suthep UDOMSAWAENG SUP, Daniel KH TONG  When should we consider revision surgery for post-sleeve GERD? Yong Jin KIM  Revisional gastric bypass after sleeve gastrectomy - Gold standard Manish BAIJAL  Hiatal repair only for post-sleeve GERD - Is it enough? Asim SHABBIR  GERD after sleeve plus, What can we do? Hui LIANG  Endoscopic option for post-sleeve GERD Simon KH WONG	<b>ELSA BOG &amp; AGM</b>	N/A
1730	<b>Closing Remarks</b>
